

## Sports Motion

Proposer: Adam Skrzymowski

Seconder: Sam Chee

This Society notes:

- Many academic societies have sports teams
- The UWCS does not have any sporting activities

This Society believes:

- Introducing sports to the society could increase engagement with a group of people who would not typically interact with the society
- Having a dedicated sports officer would be a good way to make this happen

This Society resolves to:

- Elect a Sports Officer with the aim to start some casual sporting activities and participate in campus leagues
- Amend section 4 of the constitution of the Computing Society to add to the executive committee composition as follows:

Additionally, the exec will also have the following non-core officers:

- o Sports Officer
- o The Sports Officer shall:
  - o Organise sporting events for society events.
  - o Involve the society in campus leagues.
